The British Constructional Steelwork Association Limited was formed in 1906 and is the national organisation for the steel construction industry; its Member companies undertake the design, fabrication and erection of steelwork for all forms of construction in building and civil engineering; its Associate Members are those principal companies involved in the supply to all or some members of components, materials or products. Corporate Members are clients, professional offices, etc which support the development of national specifications, design, fabrication and erection techniques, and overall industry efficiency and best practice.
